EV One

Essential features

- Charging features
 - Live & historical charging sessions
 - Static overload protection
 - Offline charging
 - Charging scheduling
- Secure OCPP
- Whitelisting
(access control)

Integrated connectivity

- Ethernet
- Wi-Fi

Optional 4G connectivity

4G Connect

Choose your features

P1 module

- Plug & play
- Digital meter compatible
- Solar integration

Included features

- Dynamic overload protection

Smart subscription

Unlock additional smart features*

- Optimise with solar
 - Solar historical insights
 - Charge with solar surplus
 - Dynamic phase switch
- Optimise with tariffs & rates
 - Energy rates
(e.g. day/night, shoulder, peak, off peak)
 - Dynamic rates
(not supported in all regions)
 - Smart scheduling with tariffs
(set departure time and travel distance)

**P1 module comes with a 1 year FREE Smart subscription.
Subscriptions can be purchased per year, 5 year or lifetime.*

Smart kit

- Analog meter compatible
- Digital meter compatible
- Advanced Solar integration

Included features

- Dynamic overload protection

Smart subscription

Unlock additional smart features*

- Optimise with solar
 - Solar historical insights
 - Charge with solar surplus
 - Dynamic phase switch
 - **Solar Live insights**
 - **Solar forecasting**
 - **Smart scheduling with solar**
- Optimise with tariffs & rates
 - Energy rates
(e.g. day/night, shoulder, peak, off peak)
 - Dynamic rates
(not supported in all regions)
 - Smart scheduling with tariffs
(set departure time and travel distance)
- Detailed metering
- Upgradeable with extra submetering

**Smart kit comes with a 1 year FREE Smart subscription.
