

Smappee WiFi connect

The Wi-Fi Connect is, similar to the Genius, the gateway between the Power Box and the cloud (Smappee or other), ensuring secure data storage from different components. Data is transferred via Wi-Fi. In the event of a network outage, data will be stored for one day. The Connect does not offer smart control, unlike the Genius that does offer smart control. When used as gateway in a Smappee EV Line Charging Station it enables smart charging and loads balancing functionalities. The Wi-Fi Connect is a cost-efficient way to add intelligence to the Smappee Infinity setup.

- Gateway between monitoring system and cloud via Wi-Fi.
- Future-proof thanks to over-the-air updates.
- Cost-effective alternative to the Smappee Genius.
- Ensures secured data storage from components.

Dimensions

55 mm × 55 mm × 26.6 mm
(2.17" × 2.17" × 1.05")

Weight

45 g (1.59 oz)

Operating temperature

-25 °C to 60 °C (-13 °F to 140 °F)

Storage temperature

-25 °C to 90 °C (-13 °F to 194 °F)

Relative humidity

0 % - 95 %, non-condensing

Operating altitude

0 – 2,000 m (0 – 6,562 feet)

EMC

IEC 61326-1, FCC 47 part 15

Safety

IEC 60950-1

Spectrum

EN 300 328 V2.1.1 and EN 300 220

Product certifications

CE, FCC, RCM

IP Rating (IEC 60529)

IPX0

Connectivity

- Wi-Fi 2.4 GHz
- 2 × Smappee Bus B

Accessories included

- Wall mounting plate
- Smappee Bus cable 150 cm (59 inches)
